Interaction gain?
Complementarity & exploitation
Mechanism: where is it lost?
Reported MAS gain
G1
Controlled gain
Is the reported gain an interaction gain?
G_{base}, G_{int}
G2
Complemen-tarity
Does interaction carry information sampling lacks?
$C^* = H - H_{ref}$
G3
Identifi-cation
Can its use be decided before the answer is known?
$C^* - C_{real}$
G4
Coverage
Is the correct answer among the candidates?
κ_{gen}, $\Delta\kappa$
G5
Truth-sensitive revision
Does a challenge correct more than it corrupts?
DI = BRR − HRR
G6
Realization
Do local revisions survive aggregation?
R
Realized collaboration utility
